*Please note, Eternal is a Special Order tile range

Welcome to the Tileflair Outdoor Porcelain Paving Collection, our hand picked selection of new and popular tile designs for gardens and outdoor spaces.

If you would like to receive full or cut samples of stocked tiles to view in your own home, simply click on any of the tiles in this brochure and you will be taken straight to our website to place your order. We will then deliver your samples direct to your door or to [your local Tileflair store](#); whichever is most convenient for you.

When you have had time to consider your tile choices, you can place an order on our website, or by phoning or visiting your local Tileflair store and a member of staff will be delighted to help you.

We hope that this brochure provides you with some tile inspiration. If you need any help or advice, our helpful and knowledgeable team are ready to assist you at helpdesk@tileflair.co.uk.

- High performance external grout
- Use up to 15mm joint widths
- 4 popular colours
- Exceptional bond strength
- Excellent, smooth application

BAL Terrace Grout

Beige

Light Grey

Light Grey

Charcoal

All BAL Terrace Grout colour indications are for guidance only.

Everything you need to tile exterior areas. BAL's external range provides a familiar system for the most common process of installing pavers and tiles; based on the traditional installation practices for external areas and landscaping. 4 Grout colours are available.

Contact Tileflair for help and technical assistance with your outdoor project.

For a quick & easy installation of **self supporting tile pavers** outside for the garden, patio or balcony.

Schluter Troba can level surfaces over slopes by up to 10%, easily drain water resulting in no freeze & thaw damage as the tiles are raised, plus different tile thicknesses are catered for.

3 Main components are required:

- Pedestals (Troba Level LV3, PLV60, PL10)
- Height Extensions (Troba Level PLA30, PLA70)
- Accessories (Troba Level AP1, PLS6 pads, ZKF)

Schlüter-TROBA-LEVEL

With Schlüter-TROBA-LEVEL, you can quickly install self-supporting pavers on balconies and terraces with lasting precision.

The small number of different product components can be variably combined to reliably level virtually any slope and construction site situation. Starting from assembly heights of 3 mm.

- **Levelling uneven areas**
e.g. above welded waterproofing joints
- **Vibration lock**
prevents twisting in case of vibrations
- **Stable installation**
with millimetre-precision levelling
- **Anti-twist protection**

Contact us for specific advice and quotations for your external tile project - we can supply many more Schluter products.

Schluter Troba

LTP Solutions

Clean, Protect & Care

For your Outdoor Porcelain

LTP PORCELAIN TILE PROTECTOR

A natural finish water based impregnating sealer that dries without altering the appearance. Helps protect against staining. Treated surfaces strongly repel water, oil, grease cements and resins. This product allows surfaces to breathe. Ideal for protecting pre and post grouting. This product is non film forming.

GRIMEX

LTP Grimex is a high performance product for stripping and cleaning of vitrified glazed ceramics, porcelain, travertine, natural stone, sandstone, slate, marble, granite, terracotta, quarry, brick, concrete, external paving, terrazzo and other mineral floors & walls. On larger areas scrubber drier machines can be used. For this project we would suggest using hand tools along the edges and then machinery on the open areas.

LTP CEMENT, GROUT & SALT REMOVER

LTP Cement, Grout & Salt Residue Remover is manufactured using acid replacement technology, which makes it ideal for use on surfaces that are acid sensitive such as limestone, sandstone, chrome and stainless steel. Ideal for porcelain and ceramic.

LTP GROUT STAIN REMOVER

Rapid action cleaning agents for removing cement residues, grout stains, salts, efflorescence and other similar deposits. This product can be used in dilute or concentrated form, to assist removal of stubborn residues
